

FIRAS JAWISH

Interior Designer & 3D Visualizer | Degree in Architecture

EDUCATION

2010 - 2017

Degree in Architecture
Damascus University, Syria

Assessed by ZAB as equivalent to a German higher-education qualification at bachelor's degree level

SOFTWARE & SKILLS

3D Visualization

3ds Max
(advanced: modeling, scene setup, cameras)

V-Ray /Corona
(advanced: Materials, Lighting, Rendering)

CAD, BIM & weitere 3D-Tools

AutoCAD
(strong 2D, basic 3D skills)

Revit / Archicad
(theoretical knowledge; basic BIM understanding)

SketchUp / Lumion
(basic skills)

Adobe & Office

Photoshop
(advanced: post-production and image enhancement)

Illustrator / InDesign / Premiere Pro
(initial project experience)

Microsoft Office
(advanced)

AI & Digital Workflows

Advanced use of generative AI tools and initial hands-on experience with AI-assisted programming

LANGUAGES

Arabic	Native
German	Upper-intermediate (B2)
English	Advanced (C1)

PROFILE

As an Interior Designer and 3D Visualizer with a degree in architecture, I develop presentation-ready interior concepts and renderings from site measurements, 2D plans, and project requirements. Using 3ds Max, V-Ray, Corona, and Photoshop, I combine material and lighting design with practical experience supporting the implementation of several Studio4 projects.

PROFESSIONAL EXPERIENCE

07/2024–07/2026	Customer Service Representative - Meta Advertising Support Concentrix Berlin, Germany
-----------------	---

- Supported Arabic-speaking Meta advertisers, mainly via chat, with issues involving Facebook and Instagram advertising accounts, and clearly categorized their concerns.

- Most recently one of the top performers in the supported market, with above-average customer satisfaction.

2022–2024	Freelance Design Projects & German Language Training Germany / Qatar
-----------	--

- After moving to Germany, advanced my German to telc B2 for professional purposes while remaining active in interior design.
- Independently developed interior concepts, Corona renderings, and dimensioned AutoCAD drawings from supplied 2D information for two fit-out projects in Qatar; both designs were subsequently implemented by local teams.
- Further developed the visualization of materials, lighting, and atmosphere in Corona through a self-directed 3D design study.

04/2021–05/2022	Interior Designer & 3D-Visualizer Studio4 Doha, Qatar
-----------------	---

- Surveyed interiors on site and produced AutoCAD base drawings and precise 3ds Max models from sketches and dimensions.
- Developed several design proposals with material and lighting concepts, presented them as V-Ray renderings, and refined them with clients.
- Produced dimensioned design drawings for contractors and selected materials and lighting fixtures.
- Supported the implementation of several projects and coordinated small fit-out trades; followed one villa through most stages to completion.

2013–2021	Freelance Interior Designer & 3D Visualizer Taqat Makani, Golden Section and other clients Saudi Arabia / Syria / Qatar
-----------	--

- Worked regularly for multiple clients for more than eight years and visualized numerous villa and interior projects.
- Translated supplied 2D plans, photographs, and client requirements into cohesive 3D concepts and presentation-ready renderings - from modeling and materials to lighting and final image post-production.
